

EMERGENCY ROOMS ARE FOR SAVING LIVES.

Many people see Emergency Departments (ED) as a quick way to access medical care. However, the ED should only be used in cases involving life-threatening medical emergencies. Visiting an ED for minor injuries or illnesses could end up costing you more if your care could have been provided at a walk-in clinic, urgent care center, or doctor's office. In addition to higher costs, you may have a longer wait time or may even be redirected to an alternative care site.

Below are healthcare options that treat minor to moderate conditions. This list can help you understand your healthcare options and help you decide which provider you should visit next time you need medical care.

URGENT CARE

› MCH Campus

315 North Golder, Suite B

If you need help finding a physician call (432) 640-6000

ED navigation, offered by the Community Health Department, assists people in finding a healthcare setting that best fits their health and financial needs. We also help people connect to resources necessary to make good healthcare choices and maintain a healthy lifestyle such as establishing a medical home, preventative services, and medical financial assistance. These ED Navigation services are offered at no cost to you. For more information about how we can help you, call (432) 640-2541.

SALAS DE EMERGENCIA SON PARA SALVAR VIDAS

Mucha gente utiliza el departamento de emergencia (ED) como una forma rápida de acceder la atención médica. Sin embargo, el ED se debe utilizar solamente en casos de emergencias médicas que amenazan la vida. Visitando una ED por heridas o enfermedades menores puede venir costándole más si su condición se podría haber proporcionado en una clínica, centro de atención de urgencia, o un consultorio médico. Además de los costos más altos, es posible que usted puede pasar un tiempo de espera más largo, o incluso, puede ser redirigido a una clínica alternativa.

A continuación, se presentan las opciones de cuidado de la salud que tratan condiciones menores a moderadas. Esta lista puede ayudarle a entender sus opciones de atención médica y ayudarle a decidir cuál proveedor debe visitar la próxima vez que necesite atención médica.
