

Mobile App Installation and Configuration

The next step is for your clinicians to install and configure the mobile application. For your convenience, we have provided the following user installation instructions.

Simply copy the instructions below and send as an email to your end users. Note that based on your configuration (**Windows User ID** or **Nuance Application Login ID**), you should provide the appropriate instructions to your end users as to how to log in and pair with their target workstation based on the pairing method you have selected. End users must open this email and click the configuration link from their mobile device.

If using the **NUANCE APPLICATION LOGIN ID METHOD** , send this version of the email to your users:

***** YOU MUST VIEW THIS EMAIL FROM YOUR MOBILE DEVICE TO COMPLETE INSTALLATION *****

PowerMic Mobile allows you to use your iPhone or Android smartphone as a secure wireless microphone for dictation into Nuance desktop speech recognition solutions. This application has been developed by Nuance for use with their desktop speech recognition applications. Please follow the instructions below to install, configure and begin using this application.

Step 1: Download the PowerMic Mobile app

- **iPhone Users** (*requires iPhone 5 and iOS 8.0 or greater*):
[Click here to download the iOS app](#)
- **Android Users** (*requires Android 4.0 or greater*):
[Click here to download the Android app](#)

Step 2: Configure the PowerMic Mobile app

- **iPhone Users:** Once you have downloaded the app, click the following link from your smartphone to configure the application:
dmic://config_/?NmsToken=NjJDMTVGNDQ0tN0Y1Mi00MUExLUIxMjAtREJCNTREj1RUJB
- **Android Users:** Once you have downloaded the app, click the following link from your smartphone to configure the application:
http://config_?NmsToken=NjJDMTVGNDQ0tN0Y1Mi00MUExLUIxMjAtREJCNTREj1RUJB

Step 3: Log in using your Nuance Application Login ID

- First, log into the Nuance desktop application, then log into the PowerMic Mobile app using your **Nuance Application Login ID** to automatically pair with the target application.

If you need any assistance with installation or getting started with PowerMic Mobile, please refer to the [PowerMic Mobile End User Guide](#) or contact your site administrator.
